Hearing date : 8-1-2013

DAILY ORDER

Arguments of Learned counsel for the petitioner and the Additional Chief Engineer Erode Electricity Distribution Circle and other officials of TANGEDCO were heard. While the petitioner argues that he is only a generator and not a consumer, during certain months the demand has crossed the sanctioned demand of 200 KVA or 1000 KVA as the case may be in the two petitions. In some months the energy consumption has also been on the higher side. The petitioner has also placed on record, the judgment of the APTEL in Appeal No. 47 of 2011 dated 17th April 2012, to ascertain whether the petitioner is generator or has used the power for the purpose other than start up. It is necessary to examine additional details such as meter down loaded data which shall be filed by the respondents. The petitioner is at liberty to furnish if any additional information he may like to place before the Commission justifying the drawal beyond 200 KVA or higher energy consumption for both the petitions. The details shall be filed within 15 days. After examining the details the matter shall be listed for final disposal.
