ORDER

Thiru. Ezhilarasan, Chief Engineer, CPP presented the case. The Commission noted that the written submissions were not filed by both parties as ordered during the earlier hearing on 4-11-2011. The petitioner submitted that they may be permitted to pursue the bidding process as originally initiated without modification in the minimum bid capacity being 100 MW and to consider to finalize the tender among the two qualifying bidders in the event of satisfying all other conditions for any quantum less than 450 MW. The counsel for the respondent submitted that he has no objection to the prayer of the petitioner in the light of

certain developments with their financiers. The Commission made the following observation:-

“For phase II procurement TANGEDCO has proposed to reduce the minimum bid capacity to 50 MW which has been approved by the Commission today in M.P.No.24 of 2011. The respondent, who is aggrieved at the threshold of 100 MW in phase I, does not press for reducing the threshold demand to 50 MW in view of the order of the Commission for reducing the limit to 50MW in phase II. Orders reserved.
