.... Respondent

I.A. No.1 of 2011 in R.P. No.2 of 2011 came up for admission before the Commission on **17-06-2011**. The Commission upon perusing the above I.A. and other connected records and after hearing the Petitioner passes the following:-

ORDER

The limited point for consideration is whether the delay of 231 days for filing the review petition is justified. TANGEDCO argues that the variable cost of Ennore Thermal Power station is high. When the Commission passed the final order, the petitioner had enough opportunity to

indicate another power plant which is similar to the Respondent's power plant. But that was not done. Therefore, the delay of 231 days is not accepted. Grounds of review have not been brought out. The review petition is dismissed.
